ICITAP Training Center, Jakarta - 13:30 to 16:00

CODIS TRAINING WORKSHOP

In the ever-evolving landscape of law enforcement, the Indonesian National Police has recognized the crucial role that scientific approaches like forensic DNA play in enhancing the efficiency and effectiveness of criminal investigations. As an organization committed to serving and protecting the people of Indonesia, the Indonesian National Police has embarked on a transformative journey to integrate cutting-edge DNA-technologies and methodologies into its investigative processes. At the forefront of this initiative is the integration of the Combined DNA Index System (CODIS), a powerful tool that has the potential to revolutionize the way crimes are solved and perpetrators are brought to justice.

WORKSHOP OVERVIEW

1. Database Management Competence:

- Educate participants on data entry, quality control, and the hit confirmation process within the CODIS database.
- Emphasize collaboration with other agencies for effective database management.

2. Legal and Ethical Understanding:

- Discuss the legal framework surrounding CODIS usage.
- Highlight ethical considerations related to DNA databases and privacy.

3. Real-World Application:

- Use case studies and practical exercises to reinforce learning.
- Address common challenges faced during DNA databasing.

4. Collaboration and Networking:

- Foster connections among participants from Pusdokkes, Puslabfor, and investigators.
- Encourage knowledge sharing and future collaboration.

WORKSHOP SPEAKERS

BRIG GEN POL, DR. PRIMA HERU

Head, DNA Lab, Medical and Health Center,
Indonesian National Police

Opening Remarks

ROBERT LAFFERTY

US Federal Bureau of Investigation,
Legal Attaché in Indonesia

**“Overview of CODIS and its Significance
in Strengthening Criminal Investigations”**
